SIHL MASTERCLASS

THE FINE WAY TO PRINT

With SIHL MASTERCLASS Sihl is offering top photographers, designers and artists the best of the best! High image quality and stability guarantee prints that offer a visible and tangible added value – today and at any time! The optimal ink densities and an outstanding finishing properties set the standards. “Made in Europe” guarantees the highest standards in safety, production and logistics. The assortment is divided into four product groups, which are tailored specifically to the different applications:

SILK & SATIN

The photo papers in the SIHL MASTERCLASS Silk & Satin family have a elegant, soft lustre surface finish, resistant to fingerprints and they are universal in application. In contrast to products with a matt finish these papers have a subtle sheen, which does not dazzle. Prints embrace excellence with perfect coloured or black & white images, and even difficult skin tones are reproduced naturally.

> MASTERCLASS Lustre Photo Paper 300 (4844)

BLACK & WHITE

Special papers for expert black & white prints can be found by users in the SIHL MASTERCLASS Black & White Series. The MASTERCLASS Satin Baryta Paper 295 (4848) from this group has the perfect combination of haptic, authenticity and durability of traditional baryta papers with the state-of-the-art technologies.

> MASTERCLASS Satin Baryta Paper 295 (4848)

CREATIVE ART

Luxurious, matt surfaces with a noble appearance characterise the print media in the SIHL MASTERCLASS Creative Art group. They are easy to process and ensure top quality consistency for art prints.

- > MASTERCLASS Matt Photo Canvas 340 (4851)
- > MASTERCLASS Smooth Matt Cotton Paper 320 (4852)

CREATIVE ART

Photos | Poster

Brilliant, sharp and vibrant coloured prints inspire onlookers. Various surface finishes can influence the appearance of a photograph and bring out the slightest details.

PE COATED PHOTOPAPERS

MASTERCLASS LUSTRE PHOTO PAPER 300

lustre 4844, 300 g/m²

First class photo paper with a fine lustre finish for demanding photographic applications

An exceptionally elegant surface, as found in classic photo lab prints, with a subtle sheen make MASTERCLASS Lustre Photo Paper 300 the perfect choice when a versatile but high quality photo paper is required.

Thanks to an anti-reflective surface finish, this photo paper is particularly suitable for presentation in difficult lighting conditions, for portraits and wedding photos, for exhibitions, interior decorating and all photographs that are to be passed from hand to hand. Thanks to its lightly texture, this product is resistant to fingerprints, dirt and typical mechanical wear and tear. Thanks to its excellent resolution capacity, prints display perfect sharpness.

Benefits

- > Brilliant colours, subtle tone differentiation and natural rendering of skin tones
- > Optimum contrast, high maximum densities and deep, rich blacks
- > Very good long-term stability
- > Completely odourless
- > Wipeable and splashproof
- > Instant dry

SIHL MASTERCLASS

IMOLA PHOTO PAPER PE 170

satin 3698, 170 g/m²

Satin, PE coated photo paper for poster and photo applications

This micro porous coated, satin finish photo paper with a PE film on both sides, is ideal for indoor poster or photo applications. This product has been specially developed for printing with aqueous inks and enables quick drying. The coating leads to an anti-reflective pearl finish, soft colour transitions and high resolution of details.

Benefits

- > Excellent colour reproduction
- > High resolution of details and excellent contour definition
- > High ink absorption capacity

Art prints

Printing artwork is always a very emotional thing. High quality canvas materials and artist papers combined with the professional printing technologies ensure that extra-special print.

CANVAS

MASTERCLASS MATT PHOTO CANVAS 340

matt 4851, 340 g/m²

First-class matt canvas for exclusive photographic and artistic applications

The MASTERCLASS Matt Photo Canvas 340 fulfils even the most demanding quality requirements. Its matt finish coating prevents undesirable reflections and produces high-contrast prints with a broad colour gamut. Its special, flexible fabric with a 2:1 weave structure ensures uncomplicated processing. The light subtle, irregular structure resembles the surface of the classic artist canvas. Typical applications are art prints, reproduction or replication of artwork, paintings or artistic photography, landscapes in exhibition quality and for interior decoration.

Benefits

- > Excellent colour reproduction
- > No optical brighteners
- > Light, irregular structure resembles the surface of a classic artists canvas
- > Extremely flexible material
- > Almost no reaction to climatic fluctuations, which ensures problem-free printing and no loss of tension when stretched on frames
- > Splashproof surface

LUNA CANVAS PRIME MATT AQ

matt 3857

High quality, matt canvas with a natural structure for professional photographic prints and artistic reproductions

Luna Canvas Prime Matt AQ is a high quality artistic canvas, based on a cotton / polyester blend and coated with a waterbased receptive coating. The 2:1 structure offers a slight irregular structure, optimal for artistic reproduction and Fine Art printing. The absence of brighteners preserve the natural colouring and leads to a higher light stability and longer lifespan.

The matt finish hinders disruptive reflections and enables photorealistic prints with excellent colours and deep, rich blacks. The material shows no white-scoring and prints are splashproof.

Benefits

- > Brilliant colour reproduction
- > Deep, rich blacks
- > Quick dry
- > No white-scoring
- > Outstanding light stability
- > Splashproof

CREATIVE ART PAPERS

MASTERCLASS SATIN BARYTA PAPER 295

satin 4848, 295 g/m²

First class baryta paper for masterly photographic and artistic applications

Subtle greyscale gradation, long-term durability, certified ageing resistance, deep, rich blacks and a unique haptic have made baryta papers the preferred media of photographers in the genre of classical modernism. Manufactured exclusively from cellulose fibres, MASTERCLASS Satin Baryta Paper 295 has a smooth, satin finish and a subtle warm colouring that is reminiscent of traditional baryta paper, but simultaneously offers all the advantages of contemporary inkjet media.

Benefits

- > For black & white prints in exhibition quality, as well as for impressive colour pictures
- > It allows extremely high resolution ensuring perfect definition
- > Special coating with real baryta
- > No optical brighteners with certified ageing resistance
- > Quick dry

SIHL MASTERCLASS

MASTERCLASS SMOOTH MATT COTTON PAPER 320

matt 4852, 320 g/m²

First class, smooth cotton paper for particularly long lasting art prints

MASTERCLASS Smooth Matt Cotton Paper 320 is made exclusively from cotton fibres and thanks to its special coating has a smooth velvety touch. The highly homogeneous surface of this paper ensures extreme strength and durability. The natural white colouring of the paper is like that of traditional artist paper. This makes it the ideal media for art prints, reproductions, artistic photos, posters, exclusive invitations and for interior decoration.

Benefits

- > Excellent colour reproduction, high maximum densities and excellent contrast
- > Excellent gradation, broad tonal range and best shading differentiation
- > Very good line definition and reproduction of details
- > Contains no optical brighteners
- > Certified acid-free and ageing resistance
- > Resistant to water and moisture
- > Quick dry

SIHL MASTERCLASS

MASTERCLASS TEXTURED MATT COTTON PAPER 320

matt 4853, 320 g/m²

First class, lightly textured cotton paper for particularly durable art prints

Due to its lightly structured surface, this premium artist paper manufactured exclusively from cotton fibres lends images a particularly intensive impression. The pleasant, soft haptic and the natural white colouring of the paper correspond to that of traditional art print paper. MASTERCLASS Textured Matt Cotton Paper 320 is predestined to produce dramatic art prints, reproductions, artistic photos, exhibition prints, posters, exclusive invitations and interior decorations in colour or in black and white.

Benefits

- > Excellent colour reproduction, high maximum densities and excellent contrast
- > Excellent gradation, broad tonal range and best shading differentiation
- > Very good line definition and reproduction of details
- > Contains no optical brighteners
- > Certified acid-free and ageing resistance
- > Resistant to water and moisture
- > Quick dry

BARYTA PAPER PRIME 295 SATIN AQ

satin 3527, 295 g/m²

High quality baryta paper for demanding photographic and art printing requirements

A coated photo paper for aqueous inks, made exclusively from cellulose fibres. It has been specifically developed for inkjet printers to reproduce in the reminiscence of classic silver halide photographic. The media offers captivating optical density and an excellent tonal range.

Baryta Paper Prime 295 Satin AQ is the optimum media not only for black & white prints in exhibition quality, but also for impressive coloured prints. The lack of optical brighteners and the acid-buffered structure provide optimum picture stability and archivability for long-term use.

Benefits

- > Wide colour gamut
- > Exceptional grey balance
- > High contrast with deep, rich reproduction of blacks
- > No optical brighteners with certified ageing resistance
- > Special coating with real baryta
- > Quick dry

CREATIVE SMOOTH PAPER 320

matt 3315, 320 g/m²

Acid-free, smooth premium cotton paper for fine art prints

Creative Smooth Matt Cotton Paper 320 is made exclusively from cotton fibres and has a smooth, velvety touch. This paper is extremely resistant and suitable for use with aqueous and latex inks. Creative Smooth Paper 320 is the ideal media for art prints, reproductions, artistic photography and portraits.

The natural colouring of the paper is like that of traditional artist paper. Due to its weight of 320gsm, the product has a high stiffness and is particularly suitable for further processing. Creative Smooth Paper 320 is also suitable for sheet fed printing with DryLab inkjet printers.

Benefits

- > Excellent colour reproduction with soft transitions
- > Contains no optical brighteners
- > Certified acid-free and ageing resistance in accordance with ISO 9706 (FograCert 28800)
- > Water-resistant
- > Instant dry

CREATIVE SMOOTH PAPER 240

matt 3314, 240 g/m²

Acid-free, smooth premium cotton paper for fine art prints

Creative Smooth Matt Cotton Paper 240 is made exclusively from cotton fibres and has a smooth, velvety touch. This paper is extremely resistant and suitable for use with aqueous and latex inks. Creative Smooth Paper 240 is the ideal media for art prints, reproductions, artistic photography and portraits. The natural colouring of the paper is like that of traditional artist paper. The material is also suitable for sheet fed printing with DryLab inkjet printers.

CREATIVE TEXTURED PAPER 320

matt 3317, 320 g/m²

Acid-free, textured premium cotton paper for fine art prints

Creative Textured Paper 320 is a textured, matt paper for art prints, manufactured exclusively from cotton fibres. This paper is extremely resistant and suitable for use with aqueous and latex printers. Its lightly textured finish makes it ideal for creating distinctive art prints, reproductions and artistic photos. The natural colouring of the paper is like that of traditional artist paper.

Due to the 320gsm weight this product is rigid and is particularly suitable for further processing. Creative Textured Paper 320 is also suitable for sheet fed printing with DryLab inkjet printers.

Benefits

- > Excellent colour reproduction
- > Soft transitions
- > Contains no optical brighteners

AQUARELLA2 PAPER 210

matt 3338, 210 g/m²

Natural white paper which gives prints the “painted” illusion

A coated, lightly textured, natural matt paper for art prints, ideal for fine quality art reproductions and impressive photographic prints. The product is manufactured exclusively from cellulose fibres and is suitable for printing with aqueous and latex inks, boasting prints with both brilliant colours and water-resistance. The natural colouring of the paper is like that of traditional artist paper.

Benefits

- > Very good colour reproduction
- > High densities and soft transitions
- > Contains no optical brighteners
- > Acid-free
- > Outstanding drying properties
