

CERTIFIED FOR HP LATEX INKS

SiHL offers a variety of materials for the latex print. Several are HP latex certified: meaning they have been profiled and thoroughly tested on HP Latex printers and in their application by an independent testing lab. These profiles are available on the product pages on our website www.sihl.com/en/ or on the HP Media Solutions Locator web page: www.hp.com/go/mediasolutionslocator. For other latex printing systems numerous profiles are also available.
