HP Latex 630 Printer

Embrace new possibilities with outstanding quality—easily

POSSIBILITIES—Level up your offering

- Produce a wide range of signage and décor jobs including applications with thin film and papers.
- Deliver stunning prints with vivid colours, smooth gradients, and sharp text at 14 m²/hr.¹
- Simple finishing, lamination, and installation with flexible inks and prints that come out dry.

EFFORTLESS—Get it done quickly and easily

- Find peace of mind with automatic maintenance processes and user-replaceable printheads.
- Save space and time with fast and automated frontloading system.
- Easily reprint projects with job storage in the printer up to 10 GB.
- Monitor your printer from anywhere and expand your capabilities with the cloud-based HP PrintOS app.

GO BEYOND—Lead with environmental certifications²

- Contribute to a comfortable³ working environment with water-based HP Latex Ink
- Differentiate your business with environmental certifications²—including UL ECOLOGO®4 and
- Reduce your plastics consumption with cartonbased cartridge⁶ and labelless supplies; free recycling via HP Planet Partners.

Join the community, find tools, and talk to experts. Visit the HP Latex Knowledge Center at https://lkc.hp.com/

This printer is intended to work only with cartridges that have a new or reused HP chip, and it uses dynamic security measures to block cartridges using a non-HP chip. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. A reused HP chip enables the use of reused, remanufactured, and refilled cartridges. More at: http://www.hp.com/learn/ds

¹ Standard mode (Generic SAV Calendar) 6-pass, 6 colours, 110% ink density. Based on internal HP testing on MACTAC JT 8500 WG-PG. Print speed may vary due to the adaptive printing mechanism, which is designed to

Eased on internal competitive analysis with public information. Applicable to HP Latex technology compared to competitive large format printing alternatives using solvent and UV technologies. See individual product data sheets for more information at http://hp.com/go/latex

Based on odor sensory evaluation when printing with the HP Latex 630 series printer and Mimaki UJV 100-160. Tests done in a 57 sqm room with 5ACH. Test conducted by Odournet following the standard VDI3882,

where the HP Latex 630 series air quality were characterized, when Printing, as "neutral" for hedonic tone compared to the Mimaki UIC 100-160.

4 UL ECOLOGO® Certified HP 832 Latex inks meet a range of stringent human health and environmental considerations. For certifications, see http://www.ul.com/EL and http://www.ul.com/gg

⁵ Applicable to select HP Latex printers. EPEAT registered where applicable/supported. See http://epeat.net for registration status by country.

⁶ Applicable to HP 832. Plastic reduction based on moving from plastic ink cartridge to cardboard ink cartridges, with annual manufacturing saving of 33 tons of plastic based on average units of HP 831 and HP 831A ink cartridges from 2018 to 2020.

Visit http://hp.com/recycle to see how to participate and for HP Planet Partners program availability; program may not be available in your jurisdiction. Where this program is not available, and for other consumables not included in the program, consult your local waste authorities on appropriate disposa

Original HP large format printing materials

HP Recycled⁶ Removable Adhesive Fabric, 3-in Core (Latex/solvent): REACH compliant⁷
HP Recycled⁶ Satin Canvas, 3-in Core (Latex/solvent): REACH compliant⁷
HP Premium Poster Paper: FSC⁶ certified⁹
HP PVC-free¹⁰ Wall Paper: UL GREENGUARD GOLD Certified¹¹, FSC⁶ certified⁹, meets AgBB criteria¹²

HP Permanent Gloss Adhesive Vinyl: REACH compliant HP Prime Gloss Air GP: REACH compliant

For the entire HP Large Format Printing Materials portfolio, please see HPLFMedia.com.

determine the status of SVHC in HP products, see the HP REACH Article 33 Declaration published at the Finning Products and Consumable Supplies.

8 62% by weight of the product consists of recycled content. Base material fabric is made from 100% recycled resin. Certified according to Global Recycled Standard (GRS) Version 3.0, March 2017.

9 Trademark license code FSC-C115319.

10 Chemical analysis demonstrated elemental chlorine to be below 200 ppm. Presence of chlorine is attributed to residual chlorine used in the papermaking process, and not due to the presence of PVC.

1 HP PVC-free Wall Paper printed with HP Latex links is UL GREENGUARD GOLD Certified. UL GREENGUARD GOLD Certification to UL 2818 demonstrates that products are certified to UL's GREENGUARD standards for low chemical emissions into indoor air during product usage. For more information, visit http://ul.com/gg. 12 With HP Latex links, prints meet AgBB criteria for health-related evaluation of VOC emissions. See http://with HP Latex links, prints meet AgBB criteria for health-related evaluation of VOC emissions.

evaluation-of-building

Print speeds may vary due to the adaptive printing mechanism to avoid image quality defects. Print mode names may vary depending on the media or application.

The color variation between printed jobs has been measured at 12 pass mode on vinyl media. Reflective measurements on a 943 color target under (IE standard illuminant DSO, and according to the standard ICEDE2000 as per CIE Draft Standard DS 014-6/E-2012. 5% of colors may experience variations above 3 dE2000. Backlit substrates measured in transmission mode may yield different results.

Automatic horizontal cutter is for use with thinner banners and canvas only. It is recommended to perform a test.

Excluding Type 2 DFE (Digital Front End) as defined in Energy Star⁴⁸ Product Specification for Imaging Equipment version 3.1.

Total power measured in sleep mode including the Digital Front End contained on the product consists of PET fabric and coatings. With liner attached, 72% by weight of the product consists of recycled content. Base material fabric is made from 100% recycled resin.

As of the date of this document, this product does not contain any of the chemicals on the EU's Candidate List for Authorization (otherwise known as Substances of Very High Concern) in concentrations exceeding 0.1%. To determine the status of SVHC in HP products, see the HP REACH Article 33 Declaration published at HP Printing Products and Consumable supplies.
