

Art Systems Ltd – Policy Statement, Integrated Management System. (Quality, Environmental, CE Marking, Health & Safety, Compliance)

Art Systems Ltd operates from Nottingham and Andover, U.K., providing personalised distribution and technical services to the digital and 3D print and associated markets.

Recognising our responsibilities to our stakeholders and future generations, this policy:

- Is endorsed by top management as appropriate to the scope of the organisations’ strategic direction, within our operating context, and is subject to the principles and obligations of ISO9001:2015, ISO14001:2015, Health & Safety management; and legal & other compliance requirements.
- Provides a framework for meeting our primary objectives:
 - To protect the environment and improve our environmental performance by minimizing pollution and waste by using natural resources efficiently and applying other controls such as the waste hierarchy.
 - To determine the processes and procedures needed to meet the needs of stakeholders, to be sustainable and profitable, continually improve customer satisfaction, through the engagement of our employees and business partners.
 - To be committed to the identification of legal, quality, compliance, and environmental risk and obligations; and analysing, evaluating, setting objectives, validating, and verifying the effectiveness of risk reducing activities.
 - Ensure sufficient and effective competent internal resources that are committed to meeting the business objectives.
 - The control of externally provided processes, products, and services, to meet the business objectives.
 - To maintain safe, clean working environments for all persons either on our or partner sites, by the application of the principles in the Health and Safety at Work etc Act 1974, and other subsequent and expanded legal requirements.
 - To be the means for driving continual improvement of the Integrated Management System.
